Final Thoughts

From my perspective, I am super excited to work with couples regardless of their budget. I have no minimum spend and am always happy to provide suggestions on where the money is best spent, where to get 'the most bang for your buck' at your venue and how to make the greatest impact on the day.

It's also important to be aware labour charges can vary dramatically as well — each venue has it's own rules on when we can set up and when we need to pack down. All of this has an impact on costs for the day. Labour charges also change depending on the time of day we need to set-up / pack down as well as the day of the week (Saturdays and Sunday incur premium labour charges and early morning set-ups and late night pack-downs also incur premium labour charges).
